STIMULUS PACKAGE

Spending your stimulus package dollars with Crick Software will transform your school/school district into an inclusive learning environment where all students have the tools they need to achieve their potential. The overall total for education spending over two years is \$80 billion, including \$12 billion for **IDEA** and \$13 billion for **Title I**.

6 REASONS TO SPEND YOUR STIMULUS DOLLARS WITH CRICK SOFTWARE

1. Crick Software produces genuine UDL (Universal Design for Learning) tools that bring out the potential in students of all abilities, including struggling students and those with special needs.
2. Their unique approach to educational software has been proven over 16 years, and is used on well over half a million school computers.
3. The company is owned and run by former teachers, and their software is innovative, practical, and makes a real impact on students' learning.
4. Their outstanding product design, recognized by countless awards, results in tools with a modern look and feel, to fit the needs of 21st century students.
5. Prices are extremely competitive, so you know that you are getting the best possible value from your stimulus dollars.
6. The company reinvests profits into growing the company to develop more outstanding software to benefit students.

Software Tools

CLICKER 5

- ✓ Supports reading and writing in all curriculum areas for students of all ages and abilities – facilitators only need one software tool for all their students.
- ✓ Talking word processor reads each sentence aloud and highlights each word as it is heard - students are empowered to write independently and edit their own work.
- ✓ Clicker Grids containing whole words, phrases, or pictures sit below the word processor – differentiation of resources is fast, easy, and effective.
- ✓ Supported by hundreds of free resources at LearningGrids.com, updated every two weeks – ready-made resources save time!

Clicker Powered Resources*

*These titles require Clicker 5

Clicker Powered resources are a powerful range of 'add-on' products for Clicker 5 – they are an easy cross-sell / up-sell and should always be mentioned to customers enquiring about Clicker 5. They fall into three categories –

- ✓ Find Out and Write About – range of titles to support non-fiction writing
- ✓ Planet Wobble – graded set of reading materials (including printed books) to support emerging and struggling readers
- ✓ New to English (NEW) – a series of titles to support students who are acquiring the English language (both English Language Learners (ELL) and Special Education students)

NEW TO ENGLISH

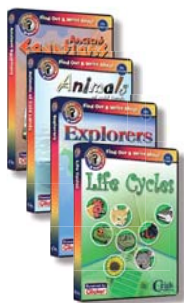

- ✓ Ideal for learners acquiring language, with stimulating speaking, listening, reading, and writing activities – students are engaged at all levels and able to control the pace of their learning.
- ✓ Builds self confidence through independent learning – accelerates language acquisition.
- ✓ Speech recording facility allows children to practice speaking skills in a non-threatening environment – empowers less confident students to practice their spoken language.

FIND OUT & WRITE ABOUT

- ✓ Wide variety of non-fiction cross-curricular topics, with text differentiated into three levels on each CD – users of all abilities can access information at their own reading and comprehension levels.
- ✓ Children 'find out' information, then use the prepared Clicker Grids to 'write about' it – provides a structured link between non-fiction reading and writing.
- ✓ Information is provided in manageable chunks, giving strong support - enables students to build up significant pieces of writing.
- ✓ Supported by real speech throughout, including a talking glossary - enables users to work independently in both reading and writing.

PLANET WOBBLE

- ✓ Animated talking stories with a wealth of structured reinforcement activities - students learn to recognize high frequency words, practice sentence construction, and demonstrate comprehension.
- ✓ Full color printed books are included with the digital, on-screen talking books - students can work either at or away from the computer.
- ✓ Eighteen books available across three levels - students progress through each level as their reading develops.
